

Carbon Reduction Plan

Supplier name: Monitor Intelligence Services Ltd ("Monitor IS")

Publication date: 15-May-2026

Commitment to achieving Net Zero

Monitor IS is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2021
Additional Details relating to the Baseline Emissions calculations.
<i>As part of our renewed commitment to Carbon Reduction, this report represents a rebaselining for 2021.</i> Definitions of scopes outlined here: https://www.gov.uk/government/publications/procurement-policy-note-0621-taking-account-of-carbon-reduction-plans-in-the-procurement-of-major-government-contracts/ppn-0621-frequently-asked-questions Scope 1 emissions are direct greenhouse gas emissions that occur from sources that are controlled or owned by the reporting organization. e.g., emissions associated with fuel combustion in boilers, furnaces, vehicles. Scope 2 emissions are indirect greenhouse gas emissions associated with the purchase of electricity, steam, heat, or cooling. They are accounted for by the reporting organization as they are a result of the organization's energy use. Scope 3 emissions include all sources not within an organization's scope 1 and 2 boundary. Scope 3 emissions often represent the majority of an organization's total greenhouse gas emissions.
Baseline year emissions:

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0. (No elements of the organisation fall within this scope as defined.)
Scope 2	7
Scope 3 (Included Sources)	Upstream transportation and distribution: 73 tCO ₂ e Waste generated in operations: 11 tCO ₂ e Business travel: 193 tCO ₂ e Employee commuting: 13 tCO ₂ e Downstream transportation and distribution: 24 tCO ₂ e Total: 314
Total Emissions	321

Current Emissions Reporting

Reporting Year: 2025	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0. (No elements of the organisation fall within this scope as defined.)
Scope 2	7
Scope 3 (Included Sources)	Upstream transportation and distribution: 66 tCO ₂ e Waste generated in operations: 11 tCO ₂ e Business travel: 159 tCO ₂ e

	Employee commuting: 12 tCO₂e Downstream transportation and distribution: 23 tCO₂e Total: 269
Total Emissions	276

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **221 tCO₂e** by 2030.

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Carbon Reduction Initiatives

Highlighted environmental management measures and projects which have been completed or implemented since the 2021 baseline or are planned for the next 12 months. The carbon

emission reduction achieved by these schemes equate to **20 tCO₂e**, a **> 7%** reduction against the 2021 baseline.

Make It Wild - Carbon mitigation via tree planting

- * Further engagement with re-wilding projects.
- * A drive to promote greener vehicles within our supply chain.
- * Other measures currently at the assessment stage.

Carbon Neutral Britain

- * One of the UK's leading Carbon Offsetting Providers
- * Sustainable tree planting projects around the world

Carbonfootprint.com

- * Planting of Kenyan trees.

[MyCarbonPlan.org](https://mycarbonplan.org)

* Various carbon offsetting schemes

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting .

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard .

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier and approved by the board of directors:

Andrew Tulley

Position: Director

Date: 15-May-2026
